

New Procedure for SCCA F&C License Renewal Clarified

F&C Worker Log Cards Will Not Be Required for Renewals

The National SCCA Licensing Office in Topeka has changed the procedure for volunteer worker license renewal. The new license renewal paper work no longer requires members to submit a worker log card for license renewal. The participation requirement for license renewal for F&C workers has not changed; it is still **six** days to maintain a Divisional license and **eight** days to maintain a National license. Satisfaction of the participation requirement for license renewal is the responsibility of the individual license holder on an **honor system** basis.

The National Licensing Office in Topeka will send, as a monthly report to each Divisional Administrator, a list of those workers, in that division, who will be coming up for renewal. This list will be sent two months in advance of the renewal date. I will forward a list of the up-coming renewals to each of the NEDiv flag chiefs for their input.

Although blank log cards will no longer be supplied with your renewed license, the National Office will continue to print these cards and make them available to the flag chiefs, upon request and free of charge, for distribution among their workers. Workers wanting to keep a personal record of events worked, or those interested in a license upgrade are encouraged to keep a log card.

This procedure applies to NEDiv F&C license **renewals** only. For F&C license **upgrades** please go to “License Upgrade Guidelines, Flagging and Communications, Northeast Division, SCCA”, on the NESCCA web site.

All F&C workers are encouraged to visit the NESCCA web site for up-to-date-information on what is happening in NEDiv. <http://www.users.fast.net/~nescca/>
